PROFESSIONAL SUMMARY

Full Stack Developer with 1+ year of professional experience building responsive and modern web applications using React, TypeScript, JavaScript, HTML, CSS, Tailwind CSS, Bootstrap, Ruby on Rails, and REST APIs. Experienced in developing scalable user interfaces, integrating backend APIs, collaborating with cross-functional teams, and delivering production-ready applications using Git and modern development workflows.

TECHNICAL SKILLS

- **Frontend:** React, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS, Bootstrap
- **Backend:** Ruby on Rails
- **Real-Time:** ActionCable (WebSockets)
- **APIs:** RESTful APIs, Third-Party Integrations
- **Background Jobs:** Sidekiq
- **Auth & Security:** Pundit, Role-Based Access Control
- **Tools:** Vite, TanStack Router, React Query, Cloudflare Workers, Google Vertex AI, Git

PROFESSIONAL EXPERIENCE

2WayClick

April 2025 – March 2026

Full-Stack Developer

- Collaborated closely with Ruby on Rails backend developers to implement new features.
- Developed responsive and user-friendly web applications using React, TypeScript, HTML, CSS, and JavaScript.
- Built reusable UI components with Tailwind CSS and Bootstrap to ensure consistent design.
- Integrated REST APIs with frontend applications and handled asynchronous data efficiently.
- Fixed UI bugs, improved application performance, and optimized user experience.
- Worked with designers to convert Figma designs into responsive web interfaces.
- Used Git/GitHub for version control, code reviews, and team collaboration.
- Participated in testing, debugging, deployment, and ongoing maintenance of production applications.

EDUCATION

Bachelor of Science in Cybersecurity (In Progress)

NCBA&E University

CGPA: 3.0 / 4.0

SELECTED PROJECTS

DecAI

Role: Full-Stack Developer

Technologies: React, TanStack Router, Supabase, Google Vertex AI (Gemini), Cloudflare Worker

- Developed modern and responsive web applications using React 19, TypeScript, and Vite.
- Built reusable and accessible UI components with Tailwind CSS, shadcn/ui, and Radix UI.
- Integrated REST APIs and managed server state using TanStack React Query.
- Implemented client-side routing using TanStack Router for scalable application architecture.
- Integrated Supabase for user authentication, session management, and secure data handling.
- Worked with Google Vertex AI (Gemini) to build AI-powered design generation features.
- Collaborated with backend developers to integrate APIs and deliver end-to-end features.

MunshiOnClick

Role: Front-End Developer

Technologies: Ruby on Rails, Bootstrap

- Developed and maintained web application using Ruby on Rails.
- Built responsive user interfaces using Bootstrap, HTML5, CSS3, and JavaScript.
- Implemented MVC architecture and reusable Rails components.
- Supported features for CRM, ERP, and business management applications.

Gomer

Role: Front-End Developer

Technologies: React , Tailwind CSS

- Developed responsive and interactive user interfaces using React and Tailwind CSS.
- Built reusable and modular UI components for scalable application development.
- Integrated RESTful APIs to display and manage dynamic application data.
- Implemented responsive layouts ensuring cross-browser and mobile compatibility.
- Optimized frontend performance and improved user experience.
- Collaborated with backend developers to deliver end-to-end features.
